▪ Light propagation at a boundary ▪

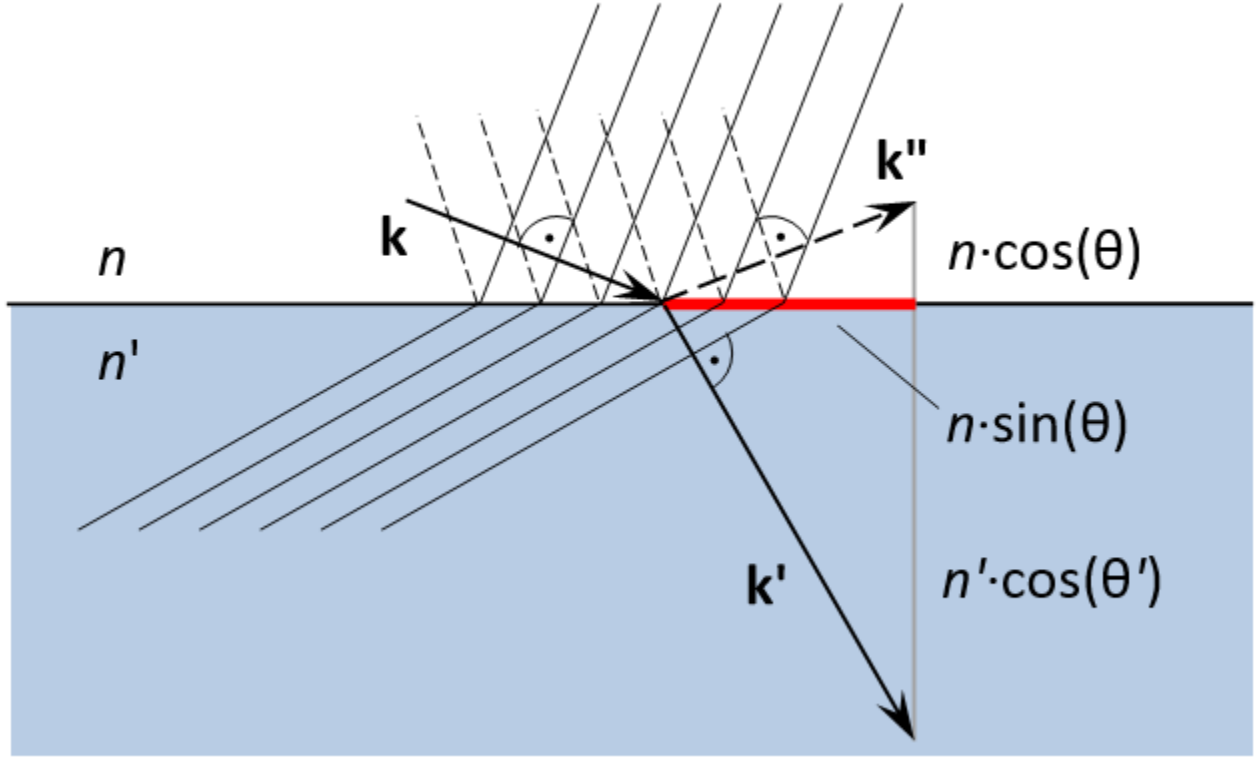

http://www.whyyouhearwhatyouhear.com/subpages/chapter2.html
Eric J. Heller, Why You Hear What You Hear

▪ Light refraction at a planar interface ▪

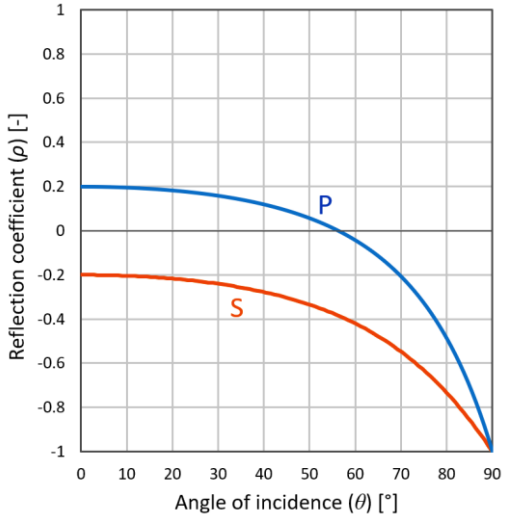

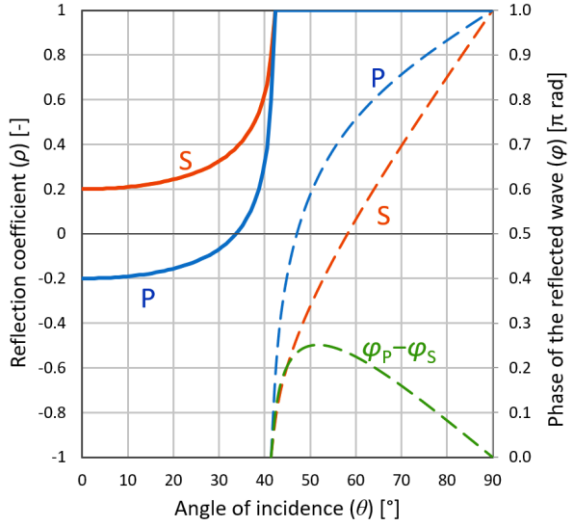

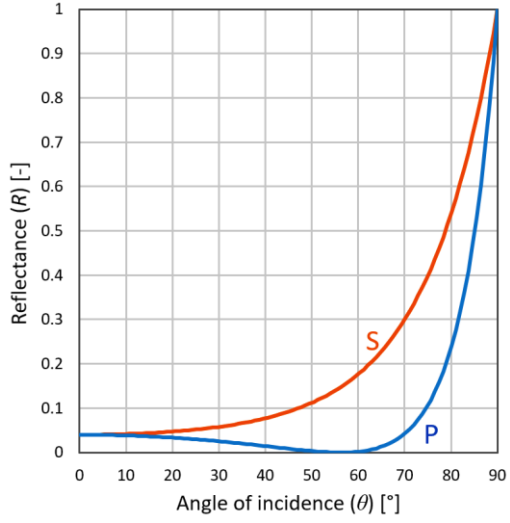

▪ Explanation of phase matching ▪

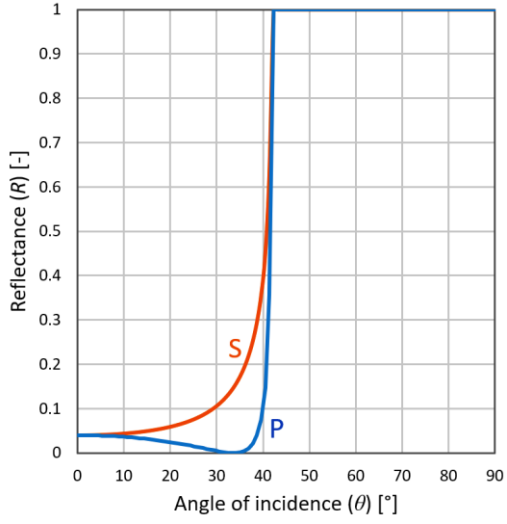

▪ Representation of Fresnel-formulae ▪

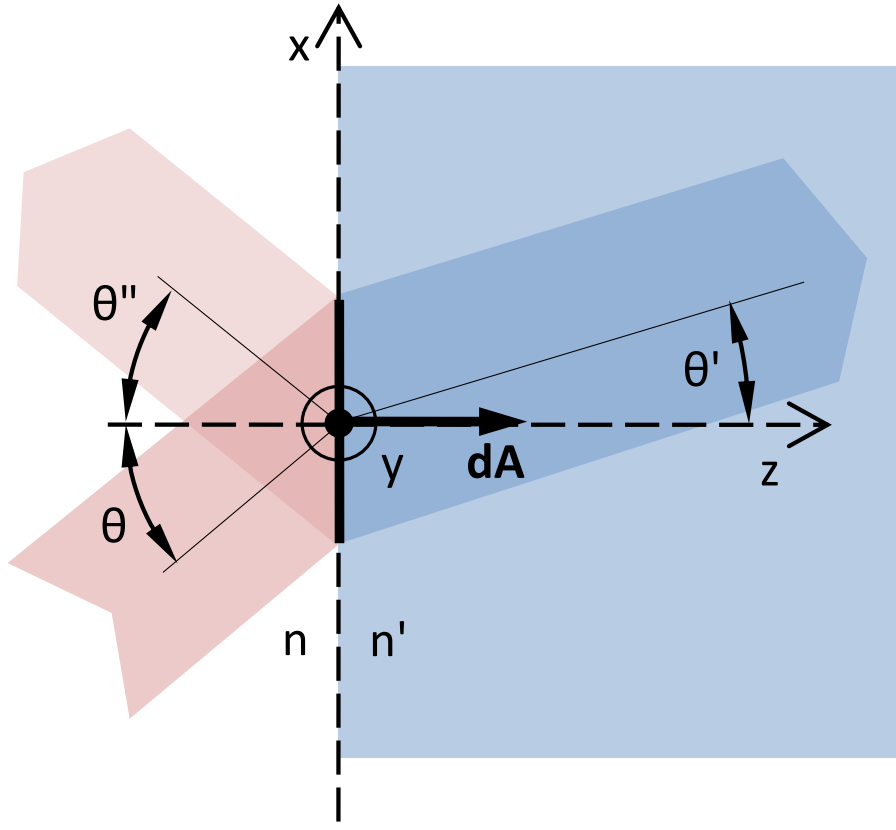

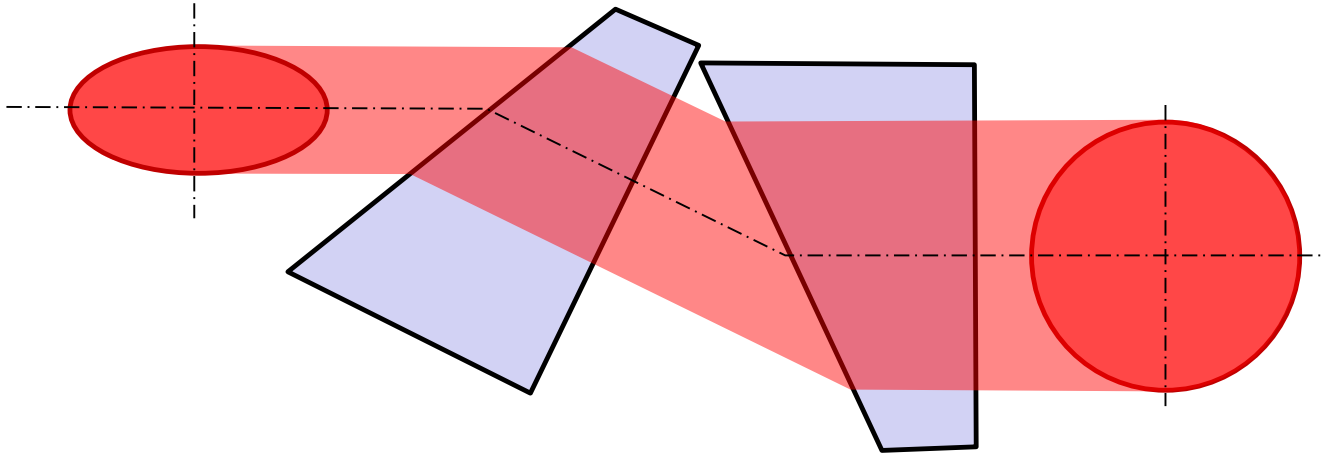

external reflection (n'/n = 1.5)

internal reflection (n/n' = 1.5)

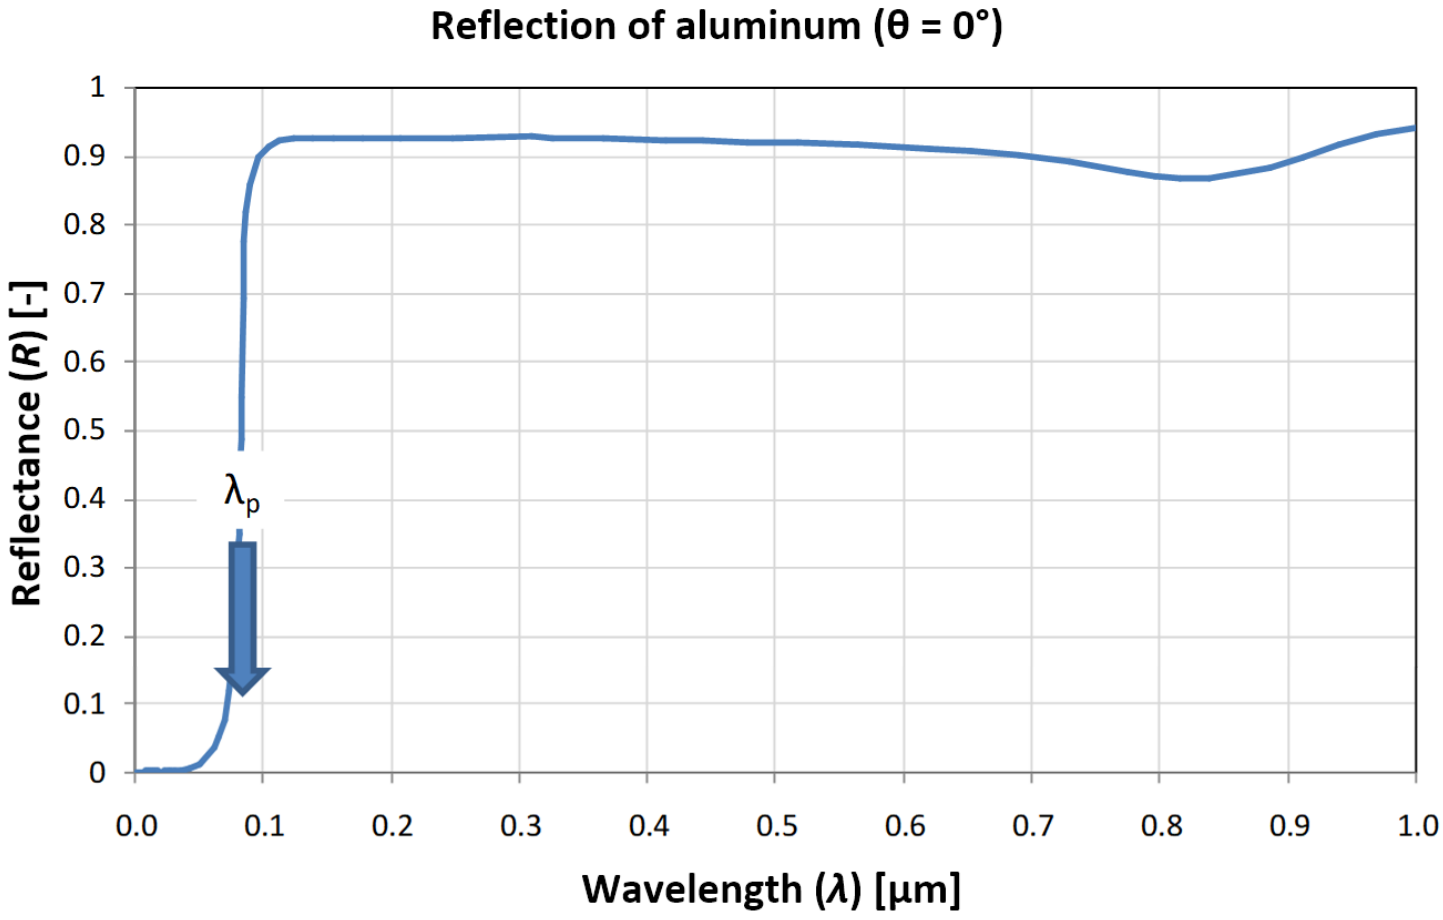

▪ Intensity terms at refraction ▪

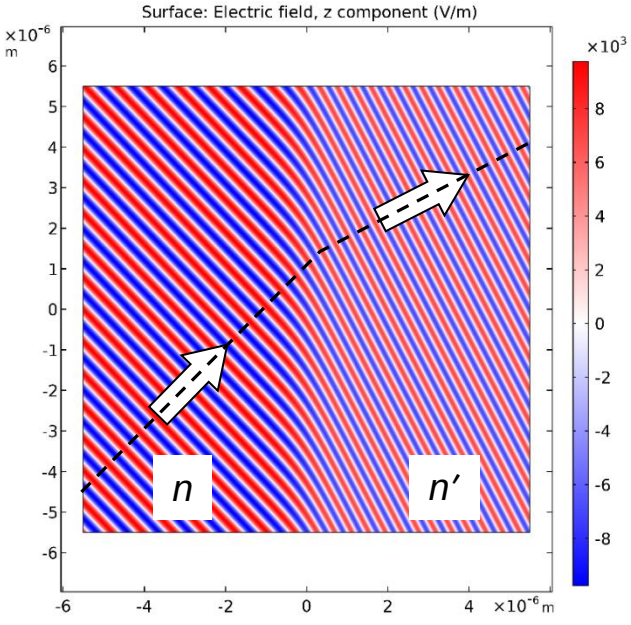

▪ Anamorphic prism pair ▪

▪ Reflectance of aluminum ▪

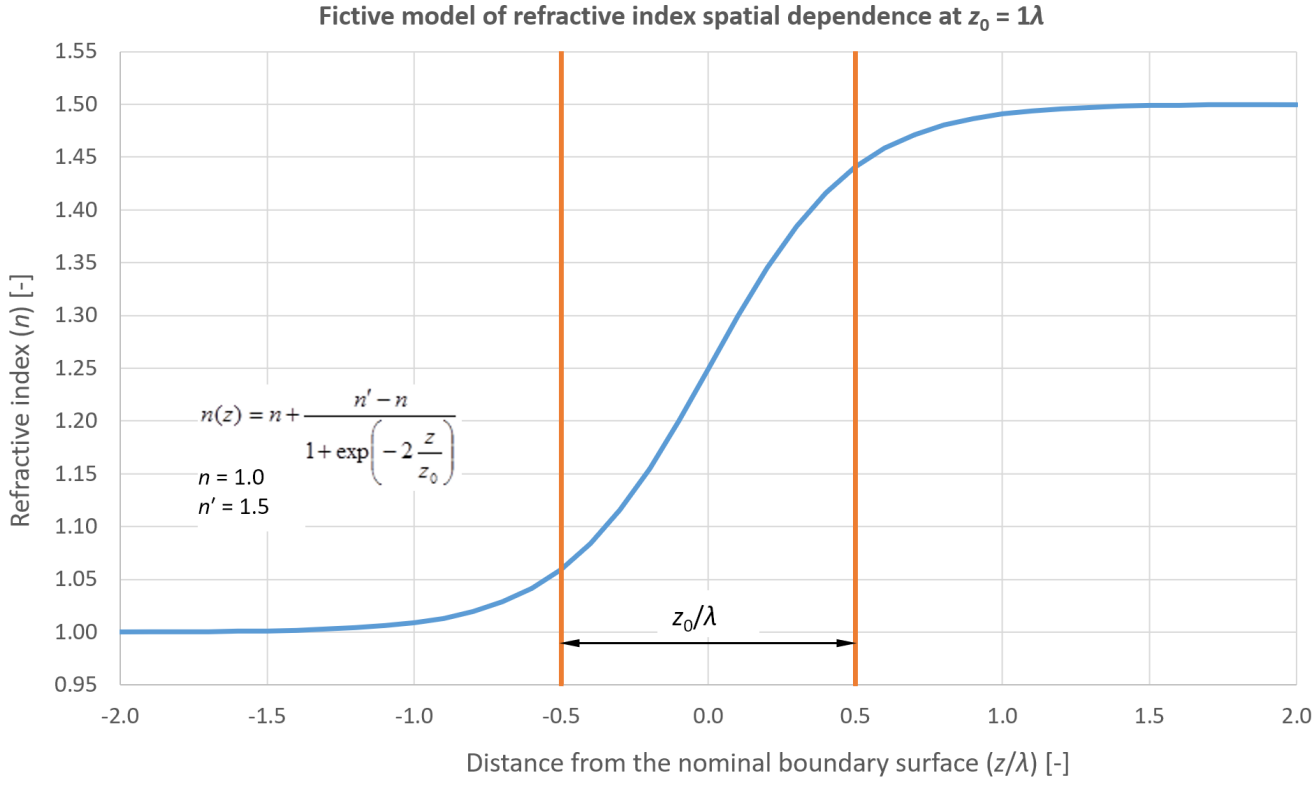

▪ Continuous refractive index change ▪

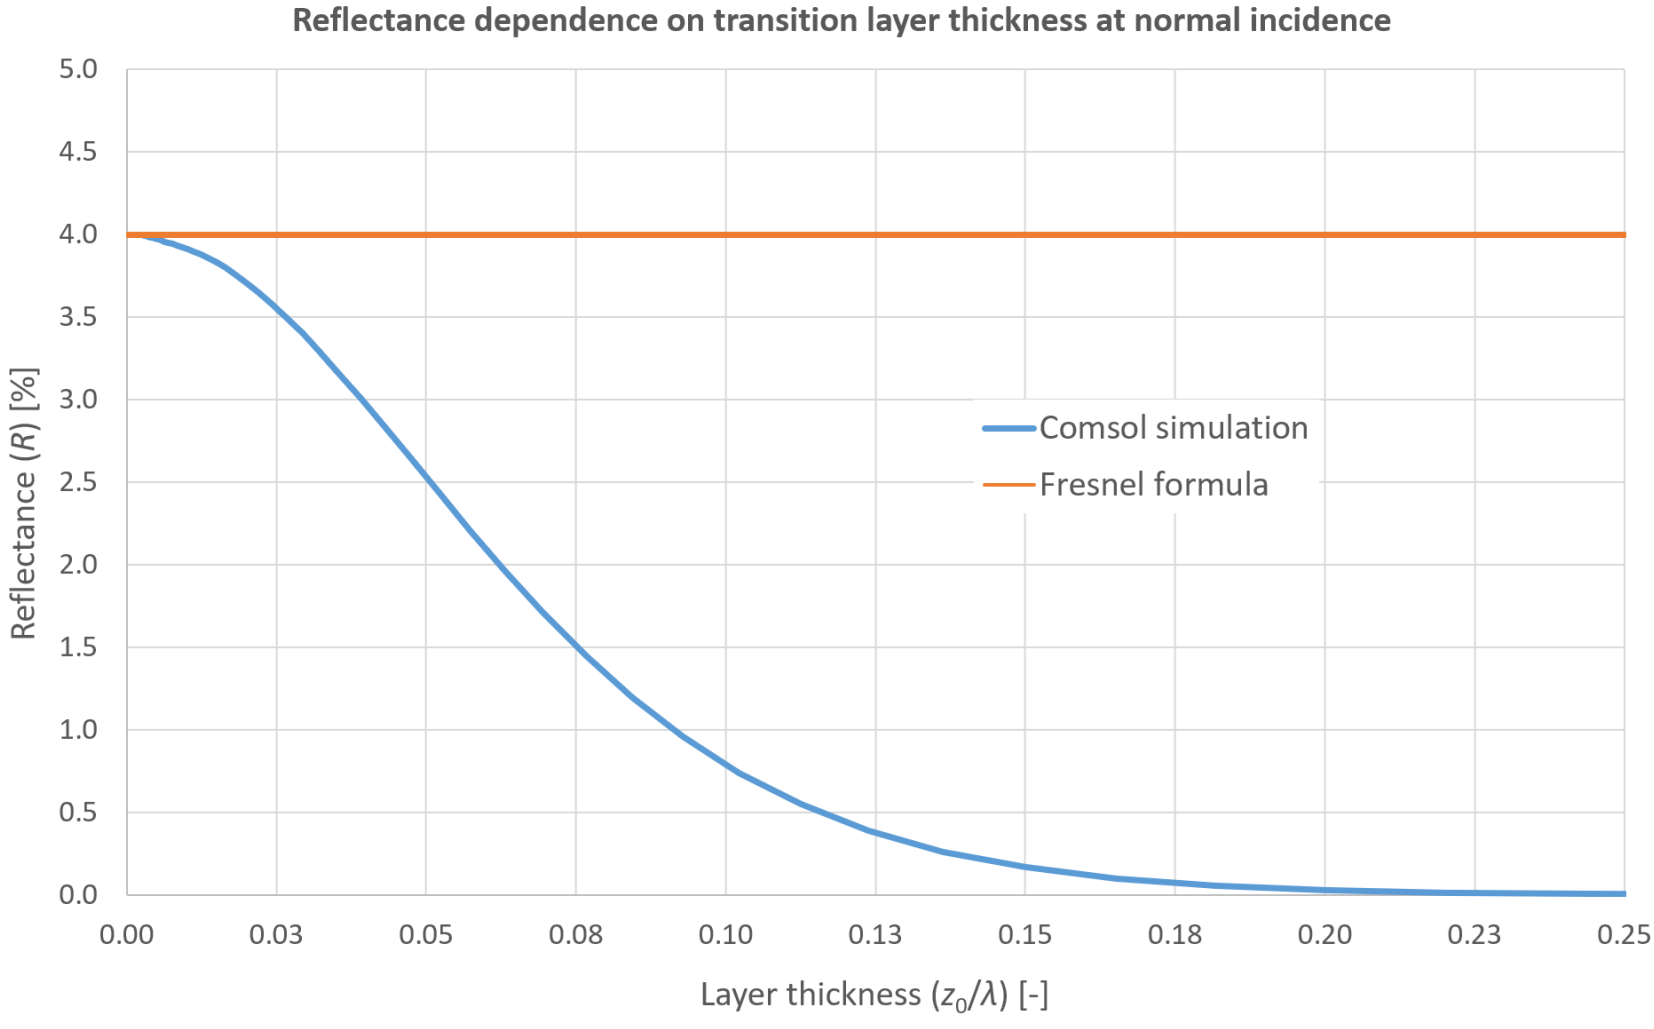

Wavefronts for $z_0 = 1\lambda$
$n = 1.0$; $n' = 1.5$; $\theta = 45°$

(by Martin Kovács, Comsol FEM simulation software)

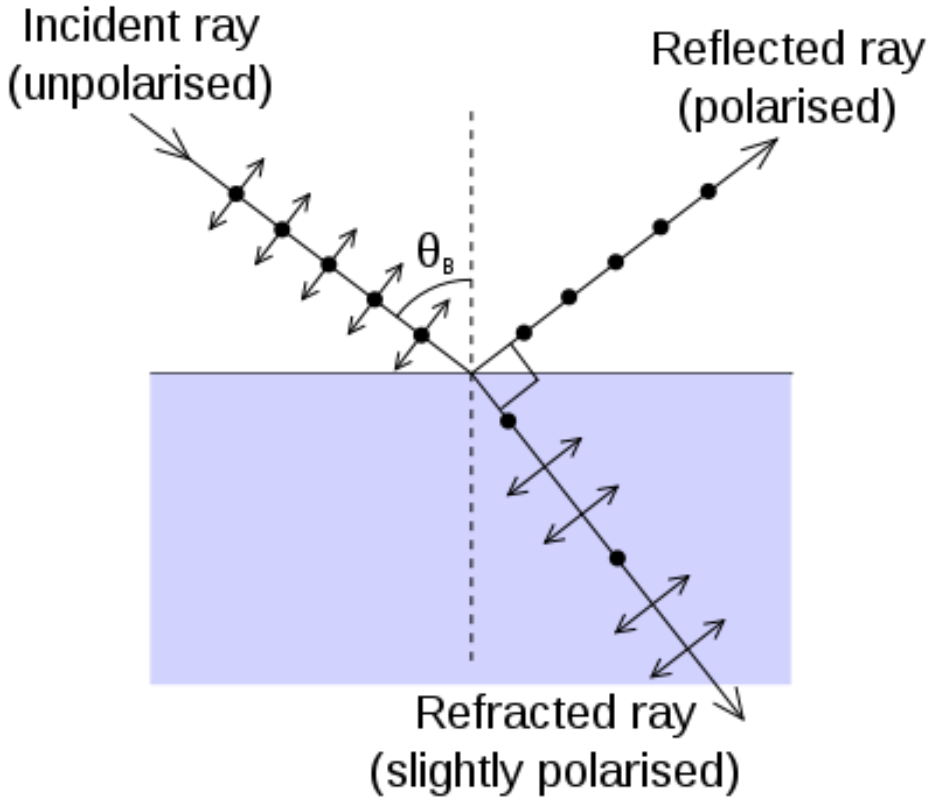

▪ Reflectance vs. layer thickness ▪

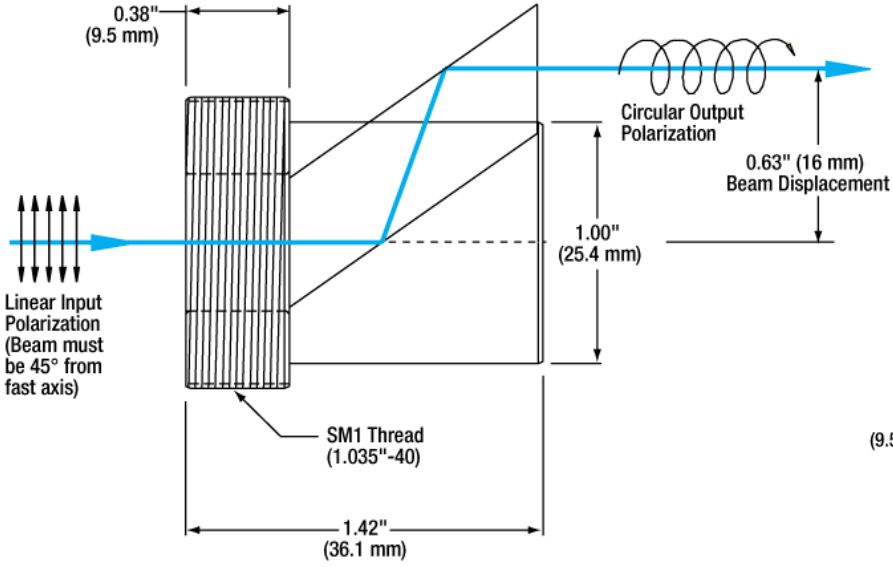

(by Martin Kovács)

▪ Explanation of Brewster's effect ▪
